

# RETAIL PRICELIST 2024

# X-CALIBUR MATCH MK23

Appearance of the X-CALIBUR model follows well known X-TRIM model with typical shapes on the slide. The new shaping of the slide resulted in weight reduction, the gun appears light and predeaceous. The revealed barrel together with emphasized castellation of the slide offers an attractive design putting the shooting experience on the first place. The sights consist of a side-adjustable steel Elliason rear sight and fibre-optic front sight. The extended slide and massive barrel make this gun perfect for target shooting.

Overall length:	215 mm
Width:	47,8 mm
Height without magazine:	134,5 mm
Barrel length:	121 mm
Weight w empty magazine:	1000g
Weight w/o magazine:	912g
Standard magazine capacity:	15

**R 41 499** incl.

# STRIBOG SP9A2

**GRAND  
POWER**

The Grand Power STRIBOG SP9A2 is blowback operated, thus robust, yet still provides excellent accuracy and reliability. SP9A2 comes equipped with side folding stock that can be fixed in both positions (open and closed) and is easily deployed even with gloves. As all STRIBOG firearms, SP9A2 possesses fully ambidextrous controls and wide range of accessory mounting interfaces, namely dual M-LOK slots on the sides of the upper receiver as well as picatinny rails on the top and bottom. STRIBOGs are equipped with integral back up sights as standard. Muzzle devices, such as suppressor may be mounted on the gun via 1/2" x 28 tpi threaded barrel interface.

Ships with Negrini Hard Case with  
1x 30rnd magazines and 3x 20rnd magazines.

**R 25 499** incl.

Caliber:	9x19 Luger
Trigger mechanism:	SA
Trigger pull weight:	2.7kg
Overall length:	424mm
Height without magazine:	200mm
Width:	57mm
Barrel length:	8"
Weight w/o magazine:	2.06kg
Magazines included:	3x20rnd - 1x30rnd
Thread size and pitch:	1/2" x 28 TPI

# STRIBOG SR9A3

A carbine version with a 10" barrel and a folding from the STRIBOG family offering an M-LOK interface as well as picatinny rails for accessories. No matter if used for competition, home defense, or just fun at the range, the SR9 A3 is a solid pistol caliber carbine that is built to last, open to modifications and customizable by many available accessories.

The main difference between the Grand Power SP9A2 and SR9A3 is the locking mechanism. The SP9A2 operates on a regular blowback system (heavy bolt). The SR9A3, on the other hand, uses a roller delayed blowback system like the MP5, making it more reliable and better suited for use with silencers.

Ships with Negrini Hard Case with  
2x 30rnd magazines and 2x 20rnd magazines.

**R 35 999** incl.

Caliber:	9mm Luger
Trigger mechanism:	SA
Trigger pull weight:	2,7kg
Overall length:	761/475mm
Height without magazine:	200mm
Width:	57mm
Barrel length:	10"
Weight w/o magazine:	2,46kg
Magazines included:	2x20rnd - 2x30rnd
Thread size and pitch:	M15X1

# STRIBOG TR22

**GRAND  
POWER**

STRIBOG TR 22, TR stands for training rifle, is dedicated .22 LR version of our popular STRIBOG, offering cheaper shooting alternative for training, or those shooters who can not or don't want to own 9x19 models. The TR22 is built from same materials as 9mm STRIBOG, has same interfaces for accessories and is as reliable as a .22 can get. TR 22 is available with 10", 12" and 16,5" barrel lengths. Standard magazine capacity is 25 rds. You will find all controls in the same shape, size and place as on your 9mm STRIBOG.

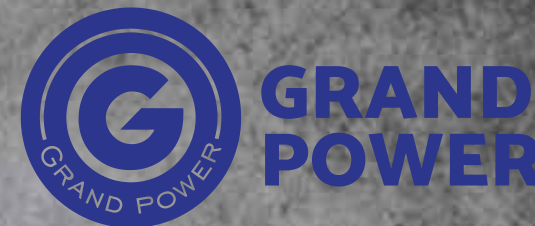

Muzzle devices, such as suppressor may be mounted on the gun via 1/2"x28tpi threaded barrel interface.

Ships with Negrini Hard Case with 2x 25rnd magazines.

**R 25 499** incl.

Caliber:	.22LR
Length - minimum (folded):	506mm
Overall length:	770mm
Height - minimum:	200mm
Height - maximum:	281mm
Width:	57mm
Barrel length:	12"
Weight:	2.4kg
Magazines included:	2x25rnd
Thread size and pitch:	1/2"x28 TPI

# K100 Mk23

The Mk23 version of the K100 takes all of the features which make the K100 the cornerstone of our handgun range, and improves them even further.

The K100 comes optics ready with four mounting plates included in the box. The gun is easier to manipulate thanks to an enhanced grip texture and the new design of slid serrations affords a more positive grip. Different color options for the frame are available.

Caliber:	9×19
Overall length:	202,1 mm
Width:	36,2 mm
Height without magazine:	133 mm
Barrel length:	108 mm
Weight w empty magazine:	785g
Weight w/o magazine:	697g
Standard magazine capacity:	15

**R 17 999** incl.

# P1 Mk23

The P1 MK23 is a hybrid of the P11's grip and a P1 slide and barrel, giving you a more concealable gun with a 15-round capacity. Combined with a firing pin block and a manual safety, it's a great, and safe carry option for those who prefer hammer-fired gun. This grip doesn't have interchangeable backstraps but offers really deep checkering and a really comfortable grip which makes it very popular with both male and female users for concealed carry.

Caliber:	9mm Luger
Trigger pull weight:	16 N
Overall length:	183 mm
Height without magazine:	119 mm
Width:	34 mm
Barrel length:	93 mm
Weight:	640 g
Standard magazine capacity:	15

**R 16 499** incl.

# K22

The K22 is a semi-automatic pistol of .22LR caliber with SA/DA trigger mechanism designated for training and hobby shooting. Its advantage is an affordable caliber combined with the size and all features of a full-sized pistol. Rifled barrel of the pistol is fixed on the steel insert and slide function is blow back. Newly designed steel slide enhances its durability and makes it stand out of other products offered in this category.

Caliber:	.22 LR
Trigger mechanism:	SA / D
Trigger pull weight:	20-25N/ 35-40N
Overall length:	211,5 mm
Height without magazine:	133,5 mm
Width:	36 mm
Barrel length:	127 mm
Weight w empty magazine:	720 g
Weight w/o magazine:	670 g
Standard magazine capacity:	10

**R 16 999** incl.

# CP22

The CP22 is our new member of rimfire family, built on tradition of our famous K22 and K22 X-trim models, both well proven and known for their excellent reliability, durability and long lifetime, but in smaller, more compact package. As all of our rimfire models, the CP22 is built from exactly the same materials as our larger caliber models, such as K100, in fact, majority of the parts is the same as for 9mm models. This means the CP22 can boast with steel slide, machined from single piece of steel, as well as full thickness steel barrel and steel insert-internal frame containing all the parts – also machined from single piece of solid steel. All of these provide for excellent performance.

Caliber:	.22 LR
Trigger mechanism:	SA / DA
Trigger pull weight:	20-25N/ 35-40N
Overall length:	173 mm
Height without magazine:	131 mm
Width:	36 mm
Barrel length:	94 mm
Weight:	595 g
Standard magazine capacity:	10 + 1

**R 16 999** incl.
